ROUGH SAPPHIRE

Testing by Bellerophon

CUT SAPPHIRE

Testing by Bellerophon

Rough Sapphire Testing by Bellerophon | Gemlab

Date of testing : November 4, 2022
Weight: 2.788 ct
Measurements: 7.99 x 5.61 x 5.38 mm

According to documents of "Fura Gems", the rough sapphire described above, was mined in its deposit in Mozambique. It was auctioned in Bangkok in October 2022.

The consistency of the analytical data collected during the examination of the rough sapphire and the faceted stone, as well as the comparison of their inclusion scenarios provided sufficient evidence to conclude that this stone was cut from that rough piece.
